

# NetVision

**NetVision** is an exciting, Internet-based product that gives your company the ability to host dedicated Web sites for your customers. With NetVision, e-commerce transactions occur seamlessly.

Customers receive a secure log-in and password allowing them to view data related to their account, log service calls, order products, and enter meter reads. NetVision is linked directly to your OMD® data and displays the information and functionality you select for your customers. It also updates data on a real-time basis.

Offer your customers a tool that will efficiently manage their fleet via the Internet, and give your sales force the competitive edge needed to close the sale.
